2023 ARCHWAY SPORT RANGE EXCLUSIVE FEATURES

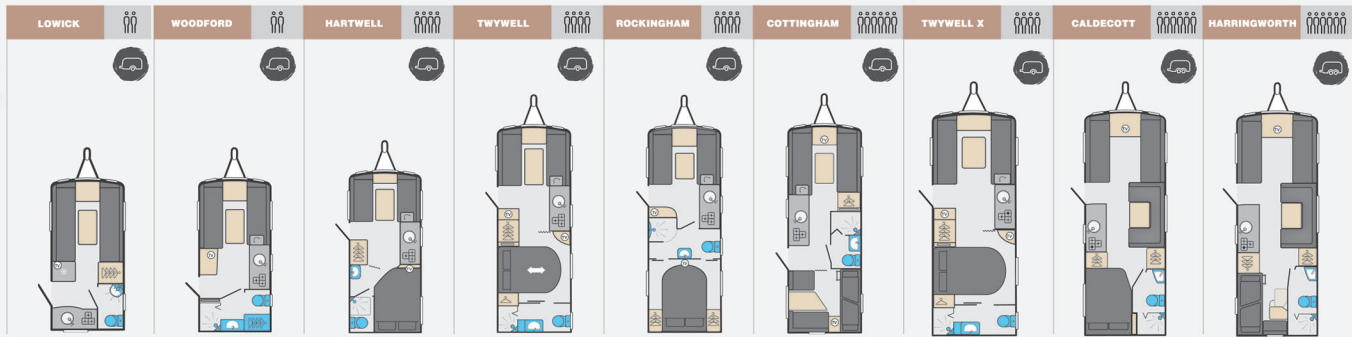

WHITE ARCHES EXCLUSIVE SPECIAL EDITION 2023 ARCHWAY SPORT

2023 ARCHWAY SPORT

The New 2023 Swift Archway Sport range offers nine models to choose from, including two twin-axles. The Archway range comes with a stunning aerodynamic exterior, weights that can be towed by most smaller family cars and a superb level of specification.

The combination of luxurious style, lightweight 'Smart' construction, unrivalled specification and all the best designed layouts means the Archway Sport Range offers a clear winning package for a first family caravan as well as an excellent choice for the discerning caravanner.

MASSSES: The masses are calculated in accordance with EU regulation 1230 / 2012 and NCC code of practice 304.

The Mass in Running Order (MRO) comprises:

1. The mass of the empty caravan as supplied by Swift including loose items such as the hook-up cable, kit bag, entrance step, manuals etc.
2. 10kg allowance for LPG

The MRO is calculated with the fresh water tank, toilet flush tank and water heater empty. If you travel with water in the fresh water tank, toilet flush tank and the water heater the payload will reduce accordingly.

The personal effects is based on the number of berths and the length of the caravan, and includes an allowance of 20kg for a leisure battery.

The Maximum Technical Laden Mass (MTPLM) is the maximum mass allowed when the caravan is fully laden.

WARNING: Under no circumstances should the MTPLM be exceeded.

BED SIZES: Please note that the front double bed sizes quoted are for seating configurations without chest of drawers. The front double bed width for a layout with a chest of drawers fitted will be reduced by 0.4m (1'4") from that stated.

AWNING SIZES: Due to the varying awning designs and sizes the awning sizes given are approximate only. Specific awning sizes must be confirmed by your dealer or the awning manufacturer prior to purchase.

The dimensions given are approximate due to slight variations in suspension ride heights, loading conditions and tyre pressures. Customers should verify the actual dimensions of their touring caravan before committing to anything that could be impacted by these dimensions.

Please note: Any dealer fit options will reduce the overall payload available to the user of the caravan. If you require additional payload it is possible to upgrade the MTPLM to the upper limit. Please contact your caravan dealer for more information.

LED ROAD LIGHTS: Certain vehicles may require a secondary fuse box when towing models fitted with LED road lighting.
